Wolf Technical Services, Inc. to feature unique invention that will change lives and impact market

INDIANAPOLIS - Wolf Technical Services, Inc., an Indianapolis-based engineering firm, is one of the 20 finalists in the "Venture Idol" competition, an event where small businesses across the state showcase their innovations.

Stuart Nightenhelser, a physicist and the Director of Advanced Programs at WOLF, will give a one-minute presentation, Nov. 8, at the Indiana Convention Center in downtown Indianapolis, on a Department of Defense Research and Development project designed and created by the company. Nightenhelser will be informing a panel of investors and judges how WOLF's unique invention will change lives and impact today's evolving market.

Finalists of the first round in the competition will advance to a five-minute presentation and question-and-answer session. Contestants will compete for several \$1,000 prizes in the categories of "Most Innovative Product," "New Product," "Biggest Opportunity," "Let Me Invest Now" and a grand prize of \$10,000.
