SCENE DOCUMENTATION AND EVIDENCE RETRIEVAL

- On-scene crash investigation
- Site survey with Sokkia Total Station or Trimble GNSS equipment
- Scene mapping with drone for later processing in PIX4D
- 3D laser scan of site and/or vehicles
- Measurements
- Photographs and video of scene and vehicles
- EDR (Event Data Recorder) download*
- Heavy truck ECM (Electronic Control Module) download

We act promptly to preserve and collect evidence, and possess the knowledge and resources to ensure evidence is preserved for immediate or future analysis. Wolf uses established protocols for collection, processing and storage. We have dedicated and secure evidence storage facilities.
